PREVENT FOREST FIRES

Millions of dollars are lost annually by the burning of forests. Much of this can be prevented if ordinary precautions are taken.

DON'T toss away burning matches or tobacco!

DON'T make a campfire in leaves, rotten wood, or against logs where it may spread or you can't be sure it is put out!

ALWAYS clear all inflammable matter away from around your fire!

NEVER leave a fire until it is **OUT**!

DON'T burn your slashing in the close season without a permit from a Fire Warden!

DON'T operate an engine without spark arrester in the close season!

PUT OUT any fire you find if you can. If you can't, notify a Fire Warden or other public officer, or the land owner. Remember that any little fire may become a big one if left alone.

All these rules but the first and last are **LAW**, and violation is punishable.

Next to water, earth is the best thing to put out fire with. The best tools for fire-fighting are the shovel, ax and mattock.

For addresses of Fire Wardens in your vicinity, write the Secretary of the State Board of Forestry.
