Special Rules.

Westward trains are superior to eastward trains of the same class.

No. 27 is superior to all other trains.

Opposing first class trains will clear train 27 five (5) minutes.

Other opposing trains will clear train 27 ten (10) minutes.

All westward trains must be clear at the time train 27 is due to leave the next station in the rear where time is shown, but not less than five (5) minutes.

Clearance Card Form 219 will authorize extra trains to use double track between Hillyard and Bridge 274 (Fort Wright) and between Bluestem and Lamona, without running orders when moving with current of traffic.

Eastward extra trains will receive clearance at Lamona and Fort Wright. Westward extra trains at Hillyard and Bluestem.

Regular trains will not require clearance at ends of double track unless train order signal displayed.

Only first class trains and trains originating at Spokane Passenger Station will require clearance at Spokane.

On single track between O.-W. R. & N. Jct. and west end Bridge 269 (Spokane) and over Bridge 274 (Fort Wright), train movements will be governed by signal indications. See Rule 605.

Trains 1, 2 and 27 register by card at Hillyard except when carrying signals.

First class trains will register by card at Appleyard. Fort Wright will not be a register station, as the register at Spokane passenger station will cover the arrival and departure of trains at Fort Wright.

Columbia River will be a registering point for Second Subdivision trains only.

Normal position of Second Subdivision switch on siding at Columbia River is for Second Subdivision.

Lap Sidings located at Trinidad. All trains will take siding at the lap.

Auxiliary Telephone Booth located at Trinidad Water Tank.

Water tank shown at Trinidad is located 3 miles east of station.

No. 1 stop on flag at Ephrata Sunday ONLY.

No. 2 will stop at Ephrata to let off passengers from Everett or west of there.

No. 3 will stop on flag at Wilson Creek and Marlin to let off passengers from points Spokane and east or pick up passengers for points Wenatchee and west.

No. 4 stops on flag at Wilson Creek and Marlin for passengers destined Spokane and east and from points Wenatchee and west.

No. 28 stop at Marlin on Sunday ONLY.

Speed Restrictions

Maximum speed permitted within the city limits of Spokane twenty (20) miles per hour except between Division and Howard streets where only twelve (12) miles per hour permitted.

Maximum speed passenger trains:

Fifty-five (55) miles per hour between Lyons and Crater and from one (1) mile east of Rock Island to Wenatchee.

Thirty-five (35) miles per hour between Fort Wright and Lyons and between Crater and Vulcan.

Forty-five (45) miles per hour between Vulcan and one (1) mile west of Columbia River.

Maximum speed P-1 engines eight (8) miles per hour over bridges 270 and 273 Spokane.

Maximum speed P-2 engines fifty (50) miles per hour.

LOCATION AND LENGTH OF TUNNELS.

Tunnel No.	Location of West Portal	Length in Feet
11.1	1468 feet east of M. P. 1622; 1.20 miles west of center of siding, Crater	927
12	1131 feet west of M. P. 1636; 1.85 miles west of center of depot, Columbia River	221

NOTE—See additional speed restrictions Page 8.

(Special Rules Continued on Page 3.)

Special Rules—Continued.

Trains stopped by semaphore home or light signals governing double track switch West end Bridge 269, Spokane, should communicate with tower on telephone located West end Bridge 269 and be governed by instructions of towerman before proceeding.

Steam whistle signals for tracks with switches controlled from interlocking tower:

O.-W. R. & N. Junction—Main line, One Long.

O.-W. R. & N. Transfer No. 1—One Long and One Short.

O.-W. R. & N. Transfer No. 2—Two Long and One Short.

FORT WRIGHT INTERLOCKING SYSTEM

Switches east end Fort Wright are operated from Interlocking Tower and signals are located as follows:

Home signal for westward train located 55 feet east of main line switch leading to S. P. & S. Ry. and has three arms. Top arm at 90 degrees up is for main line, second arm at 90 degrees up is for S. P. & S. Ry. and third arm is for siding.

Home signal eastward for G. N. Ry. located 600 feet west of east main line switch, on righthand side of siding going east and is a bracket pole, top arm is for main line trains, lower arm is fixed and denotes home signal and derail 55 feet ahead of same.

Home signal on S. P. & S. Ry. located 580 feet from east main line switch and has two arms. Top arm governs all trains entering G. N. track, lower arm is fixed and denotes home signal and derail 55 feet ahead of same.

Deraul on siding located 400 feet from frog and is governed by dwarf signal 55 feet from deraul.

Eastward Distant Signal on G. N. Ry. is located 3700 feet west of Eastward Home Signal.

S. P. & S. Distant Signal is located at west end of tunnel.

Double track switch located 20 feet East of Bridge 274 and deraul located on Westward main line 600 feet East of the double track switch, are electrically operated from Fort Wright tower, and semaphore signals govern train movements over switches and derauls.

Interlocking Rules 601-A to 685, inclusive, also Block Signal Rules 501-A to 517, inclusive, must be observed.

Eastward trains stopped by semaphore signals governing double track switch and deraul on East end of Bridge 274 will communicate with Fort Wright tower verbally, and Westward trains will communicate by phone located on East end of Bridge 274. If necessary to pass signal in Stop position the deraul and switch to be spiked before proceeding.

Steam whistle signals for tracks with switches controlled from Interlocking Tower:

Main Line, G. N. Ry. One Short and One Long

Main Line, S. P. & S. Ry. One Long and One Short

Siding, G. N. Ry. Two Long and One Short

YARD LIMIT BOARDS.

Hillyard Spokane Harrington Wilson Creek Wenatchee
West yard limit Spokane is one-half mile west of Military Spur.

Special Rules.

Westward trains are superior to eastward trains of the same class.

Trains will come to a full stop before crossing S. & B. C. Ry. at Grand Forks Jct. and send Flagman ahead before crossing.

Maximum speed ten (10) miles per hour over Columbia River Bridge No. 1 (Using not less than two (2) minutes and twenty-five (25) seconds).

Maximum speed mixed trains twenty-five (25) miles per hour, freight trains twenty (20) miles per hour between Curlew and Republic.

Maximum speed permitted only when track conditions warrant.

NOTE. See additional speed restrictions Page 8.

Normal position of Junction switch at Marcus is for Fifth subdivision.

Normal position of switches East leg of wye at Grand Forks Jct. and Grand Forks are for Marcus-Grand Forks Main Track.

Normal position of West wye switch at Grand Forks Jct. is for Grand Forks-Republic Main track.

Normal position of Junction switch at Curlew is for Sixth subdivision.

Trains will not leave Border Stations until Conductor has reported to and received clearance from Customs officers.

Water (1 1/4) mile North of Laurier.

All trains stop on flag at Karamin and Rock Cut.

SPECIAL RULES.

Westward trains are superior to Eastward trains of same class.

Maximum speed passenger trains thirty-five (35) miles per hour; freight trains twenty-five (25) miles per hour Oroville to Princeton.

Maximum speed permitted only when track conditions will warrant.

Maximum speed fifteen (15) miles per hour at high bluffs one (1) mile west of Bridesville, and from one (1) mile east to two (2) miles west of Bergen.

Trains descending Molson Hill will be governed by speed restrictions regardless of schedule time.

NOTE.—See additional speed restrictions Page 8.

Normal position of junction switch at Curlew is for Sixth Subdivision and at Oroville Jct. for Seventh Subdivision.

Service air test must be made before leaving Molson in either direction.

Westward trains will stop at Circle and Mt. Hull at least fifteen (15) minutes to cool wheels.

Trains will not leave Border Stations until conductor has reported to and received clearance from Customs officers.

Trains 396 and 397 will stop on flag at Ruby Mine Spur.

Normal position of switch at Kettle Valley Jct. is for Kettle Valley main track.

SPEED RESTRICTION FOR TRAINS ON ENTIRE DIVISION.

Maximum speed on curves for all trains:
 4 degrees—40 miles per hour.
 5 degrees—35 miles per hour.
 6 and 7 degrees—30 miles per hour.
 8 degrees and sharper—25 miles per hour.

On descending grades of 1.8% and greater, the maximum speed for freight trains must not exceed fifteen (15) miles per hour; and on less than 1.8% descending grade to a 1% grade the speed must not exceed twenty-five (25) miles per hour, live stock and fruit trains excepted. On a 1% grade and less, thirty (30) miles per hour will be the limit. It must be understood that the above is the maximum speed for freight trains, and that this maximum speed will not be made where track conditions will not warrant, which are regulated by slow orders. All trains must be handled under control and without regard to making schedule time at all points where danger of slides or falling rocks are likely to be encountered.
