STANDARD TIME.—All time shown in Great Northern published schedules of its lines east of Williston, North Dakota, is Central time; between Williston, North Dakota, and Troy, Montana, is Mountain time; west of Troy, Montana, is Pacific time.

Train Schedules shown herein have been carefully compiled from time cards currently in effect but it is sometimes necessary to deviate from them between the issues of this time table folder and it is not always possible to give advance notice of such changes. Information shown herein is therefore subject to change without notice. Also trains are at times unavoidably delayed by circumstances entirely beyond our control resulting in missed connections for which the Great Northern Railway cannot be liable.

Buy Tickets before boarding trains and avoid payment of extra charge.

TRAIN TIME IN
NORTH DAKOTA

In accordance with a measure adopted by its Legislature, the State of North Dakota now is on Mountain War Time. However, there are some exceptions.

Great Northern trains will operate through North Dakota on Central War Time as shown in schedules in this time table. Central War Time is one hour later than Mountain War Time.

When this time table was printed, Wahpeton, Grafton, Fargo, Grand Forks and Devils Lake had returned to Central War Time.

See time clock illustrations on page 6 of this time table folder.

See altitudes of stations in index pages 3, 4 and 5.

FORT PECK DAM

The largest earth-fill man made structure in the world is now completed across the Missouri river at Fort Peck, Montana, 18 miles southeast of Glasgow. The main dam is two miles long, 250 feet high, has a maximum width of 100 feet at the top and connects to a dike section extending two miles westward. There is a 4 mile "Skyline Drive" across the crest of the dam. The lake formed is 189 miles long and has a maximum width of 16 miles. A unit of 35,000 K. V. A. recently completed will generate 50,000 horse power.

Daily Bus service is maintained between Glasgow and Fort Peck Dam. Lvs. Glasgow 6:55 A. M., 2:55 P. M., 10:55 P. M. Lvs. Fort Peck 8:15 A. M., 4:55 P. M., 12:15 A. M.

Westbound passengers set watches back,
Eastbound ahead, one hour

but if your Western trip
is necessary . . .

Great Northern's passenger service of-
fices are conveniently located and can
assist you in solving your travel prob-
lems.

● Think first of the millions of service
men and women who must be taken
care of by the railroads. Their trips
can't wait, for Victory depends upon
them.

● Plan any necessary trip as far in ad-
vance as possible. Pick a midweek day
for departure and return. Save by buy-
ing round trip tickets. Take a minimum
of luggage.

● If the travel accommodations you pre-
fer are not available on the day and
train of your choice, we can help you
work out an alternative itinerary.

Northern Railway traffic
offices is shown on page 2

THE CASCADE TUNNEL

One of America's greatest engineering accomplishments, is 7.79 miles long, absolutely straight from end to end, and on a grade of 1.56 per cent descending from east to west. The construction was authorized Thanksgiving Day, the contract let November 27, 1925. Actual work began immediately. Solid granite was encountered practically throughout. The bore is entirely lined with concrete, is electrified, hence there is no noxious gas.

The official opening took place and the first train the "Empire Builder" passed through on January 12, 1929. 37 months from the time the first shovel of dirt was removed. Completion of the tunnel and the construction of 19.37 miles of new road on the east slope of the Cascade Range through the Chumstick Valley, and electrifying the line from Appleyard, near Wenatchee to Skykomish on the west slope, formed a three-fold improvement, which shortened the distance by 8.88 miles, eliminated many miles of snow sheds and transformed a slow tedious route over the Cascades into a uniform easy grade line affording fast, clean and pleasant travel.

Sending Railroad Tickets by Telegraph

To purchase a ticket between any two points, for another person, a relative or a friend, when either the starting or the end of the journey is located on the Great Northern Railway, it is not necessary to go to the starting point or to take the time to send the money for the ticket or sleeping car accommodations. Simply go to your nearest Great Northern Agent and tell him between what two points you wish the transportation, also the name and address of the person to whom you wish the ticket delivered. He will take your deposit for the value of accommodations requested and wire the Agent at the starting point to locate the person who is to travel, furnish the ticket and see that the party is started right, and wire, if desired, when the journey is begun. There is no extra charge for this service.

WILLMAR, SIOUX CITY, SIOUX FALLS AND YANKTON

A TIMELY THEME

It's priceless . . . and it doesn't cost a cent! These are days of frayed and jangled nerves, of short tempers. There is a lot of waiting in line for everything from stamps to street cars. And through all of this, when people are likely to be harassed and tired, there is a tendency to forget that priceless asset—*Courtesy* . . . We all look forward to Victory and the Peace that will follow—but until then, if each one of us, whether the one serving or the one being served, will remember that courtesy helps make life under trying conditions a great deal more pleasant!

Travelers Cheques

At many of our offices where you secure your railroad ticket, you may safeguard the funds you are carrying by changing them into American Express Travelers Cheques. These Cheques, when presented with the necessary signature, are accepted on Great Northern dining and buffet cars, at hotels and other places serving travelers. They are issued in denominations of \$10, \$20, \$50 and \$100 at a standard price of 75 cents for each \$100 purchased. A prompt refund is made if any of the cheques are lost or stolen.

ENGINE of WAR

"Our railroads are essential
to our nation's capacity to
make war. That was proved
in World War I and has
become again overwhelm-

They must be sustained by

full appreciation that they
are vital to us and must
always be prepared to go
into action to make effective
the might of the United States."

Groomed by skilled mechanics, and all steamed up for the pulling job ahead, a big Great Northern locomotive leaves the roundhouse with a hostler at the throttle.

SKILLED "GROUND CREWS" HELP MAKE GREAT NORTHERN SERVICE DEPENDABLE

Railways always have had "ground crews,"—thousands of men (and women, these days) who perform the vitally essential tasks which keep trains rolling.

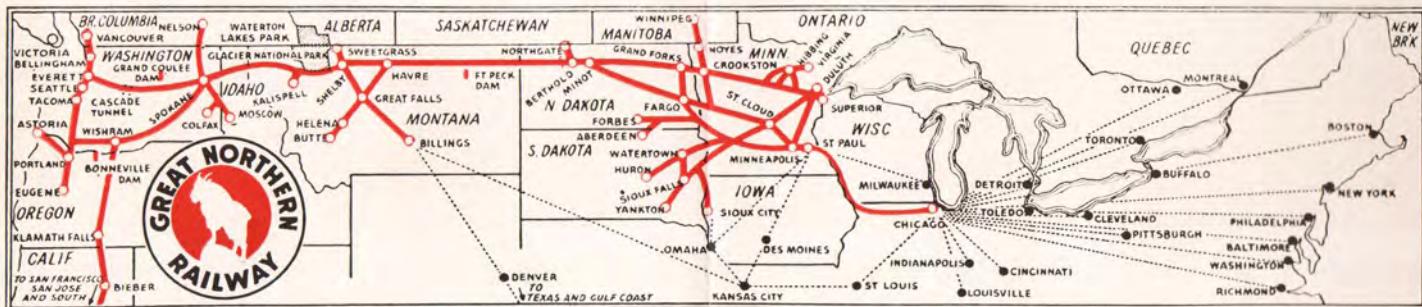

Movement of the Great Northern's *Empire Builder* requires co-ordinated action by yardmen, car inspectors and service men, engine handlers, train dispatchers, water and fuel servicers, clerks, telegraphers, telephone operators and signalmen—a *mighty important* "ground crew."

Although not actually involved in train operation, there also are the maintenance-of-way crews who keep in shape Great Northern's tracks, signal systems and bridges.

And, we're not forgetting the shopmen, who also are working around the clock repairing and rebuilding locomotives, cars, and other equipment.

Skilled "ground crews" are among the *many things which make Great Northern great*—and a dependable transportation system.

The Low Level Route Between Great Lakes and Pacific

Boss of train movements is the dispatcher. This important "ground crewman" is the nerve center of train operation.

A switchman throws a switch for an on-coming yard engine with cars for assembly into a train.
